

# Teen/Youth Fashion Sewing Class Supply List

## Sewing Box

A sewing box is recommended if student has an ongoing interest in sewing.

- \* Pencil and Notepad- useful to take notes and remember helpful hints
- \* Fabric Scissors- important to have scissors that are only used on fabric to keep them sharp
- \* Paper Scissors- scissors for everything else but fabric
- \* See-Through Quilter's Drafting Ruler- essential for pattern alterations, and sewing projects
- \* Long Handle Seam Ripper- they come in all sizes, but one with a long handle is the easiest to use
- \* Long pins w/ glass head- are visible in most fabrics, can be ironed over without melting
- \* Marking Tools- dressmaker chalk, fabric pencils, tracing wheel and paper, disappearing ink, etc.  
Choose the tools that work best on your fabric.
- \* Tape Measure - I like retractable ones because they are tidy, but you can use any Sewing Tape Measure
- \* Thread Snips- useful to keep by your machine or around your neck to cut your threads and keep your project neat
- \* Machine Needles- choose needles appropriate for the fabric and machine
- \* Seam Guide- for measuring hems
- \* Hand Sewing Needles, Thimble, and Beeswax- for any hand sewing required during project
- \* Bobbins- please bring bobbins appropriate for the machine you will be using in class; whether it is your personal machine or one from Piedmont Sewing School.

## Project Supplies

- \* Sketch pad and tracing paper pad with tear-out pages
- \* Colored pencils in favorite colors
- \* Pictures from magazines of fashion that you like
  
- \* Commercial Sewing Pattern- choose by student's measurements, and what is appropriate for skill level; ask instructor for assistance if you are not sure.
- \* Fabric appropriate for pattern- pre-washed and dried
- \* Any Notions and Interfacing required by pattern (and view)- pre-wash zippers and interfacing (hand wash cold, hang dry)
- \* Thread- to match project
